

One sheet per gateway, copy as needed. Please tick exactly one connection type and fill in only its fields.

Brief info for IT

Radio: LoRaWAN (EU868) between sensors and gateway; internet connection via LAN, WLAN, or LTE.

Data: sensor readings only (e.g., temperature), encrypted via MQTT over TLS, outbound. No inbound rules.

Conformity: Milesight gateways CE / RED compliant (Directive 2014/53/EU).

Details on endpoint, port, hosting, and retention, and any questions: iot@flowtify.de

Location of the gateway: _____ (Example: kitchen, office)

<p><input type="checkbox"/> DHCP <i>(recommended)</i></p> <p>The gateway gets its IP automatically from the router. No further details needed.</p>	<p><input type="checkbox"/> Static IP</p> <p>IP address: _____</p> <p>Subnet mask: _____</p> <p>Gateway: _____</p> <p>MTU: _____</p> <p>Primary DNS: _____</p> <p>Secondary DNS: _____</p>
<p><input type="checkbox"/> Wi-Fi <i>(we do not recommend this!)</i></p> <p><small>Less stable than LAN/LTE. After switching to Wi-Fi, the gateway can only be accessed via a LAN cable!</small></p> <p>SSID: _____</p> <p>BSSID (optional): _____</p> <p>Encryption Mode:</p> <p><input type="checkbox"/> No Encryption <input type="checkbox"/> WEP Open System</p> <p><input type="checkbox"/> WEP Shared Key <input type="checkbox"/> WPA-PSK</p> <p><input type="checkbox"/> WPA2-PSK <input type="checkbox"/> WPA-PSK/WPA2-PSK</p> <p>Cipher:</p> <p><input type="checkbox"/> Auto <input type="checkbox"/> AES</p> <p><input type="checkbox"/> TKIP <input type="checkbox"/> AES/TKIP</p> <p>Key (Password): _____</p>	<p><input type="checkbox"/> LTE SIM</p> <p><input type="checkbox"/> flowtify MultiProvider SIM <i>(recommended) no further details required</i></p> <p><input type="checkbox"/> Own SIM:</p> <p>Provider: _____</p> <p>Data plan name: _____</p> <p>SIM PIN: _____</p> <p><input type="checkbox"/> No PIN required</p>
